ADDITIONAL INFORMATION:

Solution/Action:

If an 83751A/B is found with the incorrect password, "83752", change the password to "83751".

To change the password:

1. Press [Shift], [Special], "24" [Hz/s/ENTER].
2. At the enter password prompt, enter "83752" [Hz/s/ENTER]. If the password is not accepted, the customer has set a new password and the password should not be changed. If this case see section 8 of the Service Guide for instructions on how to bypass the password if access is required to calibrate the instrument, .
3. Use the up/down arrow keys to locate "312 New Password" and press [Hz/s/ENTER].
4. At the old password prompt enter "83752" [Hz/s/ENTER]. 5. At the new password prompt enter "83751" [Hz/s/ENTER].

See section 8 of the 83751/2/A/B Service Guide for the full set of instructions for changing the password.
