ADDITIONAL INFORMATION:

Situation:
There is design change of receiver board from E5080A from E5071-62011 to E5080-62011.

Solution/Action:
The second generation of receiver board, E5080-62011 is compatible with later firmware of E5080A but not with firmware version A.11.00.08 and below.

Step1: When using E5080-62011 for repair, update FW to A.11.00.09 or later.

Refer to *Table 1* below for the compatibility.

Table 1 Compatibility of Receiver board with FW version of E5080A

E5080A receiver board	FW A.11.00.08 and below	FW A.11.00.09 and later
E5071-62111	Work with the above FW revision	Work with the above FW revision
E5080-62011	Does not work with the above FW revision	Work with the above FW revision

Step2: Perform Adjustment A.01.02 or later

Step3: If Power On Test still failed, refer to Service Note E5080A-09 to solve it.
