Situation:

If the SP50 has power applied and service personnel or operators access the inside of the system through the side openings, their hand can be caught in the Gantry, causing severe injury.

Solution/Action:

To install Safety Guards to protect against potential pinch hazard points on the SP50 system.

To install the gantry safety guard kits and follow the Installation Procedure 5186-5438 included in the "Safety Guard Kit" 5186-5436.

Note:

Once you have completed the installation of the "Safety Upgrade Kit" fill out and install the Service Note label (Part Number N7200-84366) on the SP50 System near the serial number plate at the rear of the machine.

After completion of this Service Note send an email with the SP50 Serial number and state the Service Note Identification Number to: MTBUSERVICENOTES@agilent.com
